RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 74 pages. Original publisher: Newtown Square, PA : U. S. Dept. of Agriculture, Forest Service, Northern Research Station, 2008 OCLC Number: (OCoLC)226370353 Subject: Coarse woody debris -- Monitoring - - United States. Excerpt: . . . 2. 0 PLOT-BASED SAMPLING PROTOCOL In this section we present an overview of field needles, down twigs, and measure the duff depth protocols for the DWM indicator as currently across an entire plot. Hence, the DWM sampling implemented by FIA. For a detailed description protocol is distinctly different from phase 2 of the protocols implemented by field crews, see sampling techniques used to estimate USDA For. Serv. (2004) and Appendix 7. 6 (field populations of standing trees. The sampling datasheet). The DWM protocols described here protocol for DWM components includes: have been used by FIA since 2002. For information on historical DWM sample designs 1. Line-intersect sampling for CWD and FWD. used by the Forest Health Monitoring (1999-2000) and the FIA programs (2001), see 2. Systematic point sampling for duff, litter, and Appendix 7. 5. The Pacific Coast states began fuelbed depths. sampling CWD in...

Reviews

This pdf is wonderful. It is definitely simplified but excitement from the 50 percent in the ebook. You wont sense monotony at at any time of your time (that's what catalogues are for relating to should you request me).
