Water-Supply Paper Volume 114

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 96 pages. Original publisher: Washington : U. S. G. P. O. , 2009. LC Number: KF27 . S39 2009g OCLC Number: (OCoLC)568389565 Subject: Astronautics -- United States -- Finance. Excerpt: . . . 11 a left-heart lead. The left-heart lead, which was recently approved by the Food and Drug Administration, delivers electrical impulses directly to the heart from a pacing device implanted in a patients chest. The NASA-developed resin is highly flexible, resistant to chemicals, and can withstand ex-treme hot and cold temperatures. The super plastic is biologically inert, thus making it suitable for medical use, including implantable devices. The NASA-developed insulation material enabled the company to develop one of the thinnest left-heart leads available. An electronic nose developed for monitoring air quality on the International Space Station has shown promise as a new weapon against brain cancer. The electronic nose, developed by NASA to automatically monitor the stations air, is able to detect contaminants within a range of one to approximately 10, 000 parts per million. In a series of experiments, researchers used NASAs device to sniff brain cancer cells and cells in other organs. Their data...
